EDUCATION COMMITTEE UPDATE

Kicking off 2018 with a BANG!

As noted last month, the accomplishments of 2017 were impressive. However, there is always room to grow! To keep the momentum climbing, the Education Committee had their meeting on November 15th and focused on their goals for the upcoming year. In addition to incorporating feedback received at the conference, there will be a needs assessment survey released mid-December to capture a better understanding of what educational opportunities IACRN members would like to see. We'd like nothing more than to exceed your expectations!

Of course the wishes for MORE EDUCATIONAL RESOURCES has not gone unheard!!! In 2018, the Education Committee looks to provide more webinars, twitter chats, and COMING SOON... the CRN tool kit.

While we await your survey responses, our task forces will also be brainstorming. We always welcome new input and ideas!
