

Clinical Research Nurse Coordinator II: Intermittent Fasting Study
University of Alabama at Birmingham (UAB)
Birmingham, Alabama

The University of Alabama at Birmingham (UAB) is a research university and academic health center that discovers, teaches and applies knowledge for the intellectual, cultural, social and economic benefit of Birmingham, the state and beyond. As a **Clinical Research Nurse Coordinator II: Intermittent Fasting Study**, you will join us for the largest study of intermittent fasting in diabetes patients in the world. You will oversee a large clinical trial testing whether intermittent fasting and light therapy can help people with type 2 diabetes lower their blood sugar, lose weight, sleep better and improve other aspects of health. We will rely on you to:

- Manage all aspects of assigned clinical studies, including education
- Follow participants from recruitment through treatment, discharge and follow-up
- Collect various assessments such as adverse event information or questionnaires
- Lead, manage and mentor research staff
- Develop protocol-specific systems and documents and act as a consultant
- Assist with the development of protocols
- Provide direction for preparation of study, monitoring visits and findings
- Collect, record and prepare data for publication
- Design best practices for management of IP for drug, device and biologic studies
- Coordinate the management of investigational products (IP)

Qualifications:

- Bachelor's degree in a related field
- 3 years' related work experience. (Work experience may substitute for education requirement.)
- Current RN licensure in AL

About the University of Alabama at Birmingham

UAB is the largest research institution in the state of Alabama, the largest employer in the city of Birmingham and the only public, four-year degree-granting university in the state's largest metropolitan area. We are internationally renowned for our intensely collaborative culture that has—for nearly five decades—produced continual breakthroughs in education, healthcare, research and service.

The faculty and students of UAB have generated unique ideas and groundbreaking solutions to address the issues and challenges of a changing society. With 20,000+ students representing more than 100 countries around the world, UAB provides a collaborative learning experience that prepares students to lead, teach, conduct research, provide professional services, become the prominent scholars and societal leaders of the future and contribute to our region's and our nation's prosperity.
