

Position Title: Clinical Research Nurse

Internal Job No. 243259-AS

Organization name: Carbone Cancer Center | University Wisconsin School of Medicine and Public Health

Organization location: Madison, WI 53792

Position description: The Clinical Research Nurse will join the Clinical Research Central Office (CRCO) at the University of Wisconsin Carbone Cancer Center (UWCCC) to coordinate cancer clinical research within one or more Disease-Oriented Teams. The primary duties of this job involve the management of subjects enrolled in clinical research studies at the UW Carbone Cancer Center. This position will report to the Clinical Team Manager and work under the general direction of the Principal Investigator of each research study.

The Clinical Research Nurse must have a high degree of clinical expertise with a specific focus on the treatment of patients with anticancer agents and a specialized nursing competence in the field of Oncology Research.

Work experience should demonstrate dependability, flexibility, and maturity. Candidates must be effective at building interpersonal relationships with constructive interactions, be clear and effective communicators, promote and create collegial environments that value accountability. Employees will also be expected to uphold UWCCC core values as defined below:

- Diversity & Inclusiveness: Embrace differences and promote fairness and equity while fostering a sense of belonging.
- Respect: Demonstrate respect for self and others -- behave professionally.
- Integrity: Act with integrity and honesty.
- Teamwork: Commit to and demonstrate teamwork.
- Excellence: Ensure excellence, quality, and high ethical standards in conduct and performance.

-TB testing and a Caregiver Background Check will be required at the time of employment. This position has been identified as a position of trust with access to vulnerable populations. The selected candidate will be required to pass an initial Caregiver Check to be eligible for employment under the Wisconsin Caregiver Law and then every four years.

- The successful applicant will be responsible for ensuring eligibility for employment in the United States on or before the effective date of the appointment.

Type of position: Permanent | Full or Part Time: 80% - 100%

This position requires some work to be performed in-person, onsite, at a designated campus work location. Some work may be performed remotely, at an offsite, non-campus work location.

Qualifications:

- Minimum one year nursing experience.
- Candidates should have exceptional clinical nursing skills and expertise coupled with a strong interest in clinical research.
- Prior experience with the treatment of patients with anticancer agents is preferred.
- Prior clinical research experience preferred, particularly specialized nursing competence in the field of Oncology Research.

How to apply: Please submit and application through our website at <https://jobs.hr.wisc.edu/en-us/job/511112/clinical-research-nurse> or email resume and cover letter to Sarah Stewart.
